Catholic Pupil Profile

This document is designed to ensure that young people on roll at St John Fisher Catholic College who attend alternative provision are safeguarded and to ensure placements are quality assured to the same standard.

Principles and Context

Alternative Provision is used for learners in Key Stages 3 & 4. Alternative Provision is educational provision for learners who are not accessing mainstream education for a variety of reasons.

These are the main reasons for choosing Alternative Provision:

- To support learners with complex Special Educational Needs and or Disabilities (SEND)
- To fulfil Educational Health and Care Plan (EHCP) provisions.
- To support learners with medical difficulties (including mental health) to access education.
- To provide provision which reduces the risk of a learner being permanently excluded from school.
- Reintegrating a learner back into mainstream school following a period of sustained absence.

The use of alternative provision will only be considered if it is in the best interests of the learner in order to enhance our offer of education for that individual. Any agreement will be monitored and reviewed at regular intervals to ensure that this continues to be the case once the placement has started. The final decision to refer a learner for alternative provision is at the discretion of the Head Teacher after consulting relevant colleagues, professionals, parents, carers and the learner for the views. The following will also be considered:

- Whether the provision meets the learner's needs.
- The quality and safety of the provision.
- Costs and value for money.

Full time education is generally accepted to be 25 hours a week. All young people must receive full time provision in total whether in one setting or more, unless a young person's medical condition or social circumstances make full time education inappropriate.

List of Alternative Providers

Alternative provision could take the form of part time/full time or a combination of provision alternative with a variety of providers. St John Fisher Catholic College uses a range of Providers of Alternative Education in Newcastle, Stoke on Trent and surrounding areas. These providers offer a range of courses from trade subjects (mechanics, construction, hairdressing, etc.) to specialist areas (sports, business, catering, childcare, fashion, drama and art) to GCSE or key skills classes.

Quality Assurance

In order to ensure the quality of alternative provision, the following arrangements are in place. To ensure key staff are fully aware about the use of alternative provision, a weekly information report will be created providing the following information:

- Learners on placement during the week, location and time out of school;
- Attendance of learners on placement during the previous week.

Safeguarding

The provider will:

- Read and sign the 'Keeping Children Safe in Education' document provided and return to the school.
- Inform school when a young person does not attend the provision.
- Follow their safeguarding procedures but also inform St John Fisher Catholic College of any concerns, so they can be passed on to our DSL.
- Inform school of any 'near misses' and hospital visits.
- Inform parents/carers of any first aid treatment.

The School will:

- Send an appropriate member of staff to the provision ahead of the learner attending.
- Complete all relevant checks (see table included – appendix 1 AP or appendix 5 work experience providers).
- Share information that is in the learner's best interest to share around their needs (including medical conditions and individual healthcare plans if in place) and strategies to support them to achieve.
- Record and track the use of alternative providers using our Single Central Record.

Attendance

Tracking attendance at alternative providers will be considered on a case by case basis to ensure that any variation in service is considered. The procedure for tracking attendance will be recorded in the learner's Alternative Provision Support Plan (see below). However, tracking attendance will be guided by the following principles:

1. Learners who are recorded on a Single Register should be monitored on a daily basis and unknown absence should be verified using our normal attendance procedures. Contact will be made AM and PM to confirm attendance to all providers. If the learners are absent we will contact the parents/carers. Where learners are absent for 2 days from provision, a home visit will be carried out.
2. Learners who are dual registered will be monitored using the procedures of the provider. These are considered when the placement is commissioned. St John Fisher Catholic College should monitor that this is happening at least fortnightly and depending on the placement may do this daily. School will liaise with the provider from day 2 onwards if the child is absent in order to confirm what steps have been taken. Based on this, the school will decide on how to proceed.

Parents must notify school that their child is at home on days when learners are not timetabled or required to be in provision. If contact is not made by the parent then normal attendance procedures will be followed.

Alternative Provision Support Plans (appendix 2) See appendix 4 for work experience providers.

Learners are expected to be in school all of the time. Where there are health or social circumstances that prevent a learner from attending school for a prolonged period of time, then the school will consider a planned re-integration programme which may include the use of local alternative provision providers. In these circumstances the school will produce an Alternative Provision Support Plan which will specify the times that the learner is expected and the activities that they are expected to engage with. This is not a long-term solution, it will be reviewed regularly to ensure that its objectives are being met and that the provision is still fit for purpose. If a plan is in place then any agreed absence will be coded as authorised. Any absence that is not agreed will be coded as unauthorised and St John Fisher Catholic College may pursue normal attendance procedures.

St John Fisher Catholic College will always try to engage with the appropriate professionals when developing a plan to ensure that the objectives are suitable for the circumstances. This may be consultation with the local authority for Special Educational Need and Disability, medical professionals or commissioning psychometric assessment. The support plan will:

- Be reviewed by a designated member of staff at regular intervals to ensure that arrangements continue to meet needs of the learner.
- Set clear objectives for using alternative provision.
- Document how the use of alternative provision will impact on the curriculum delivered in school.
- Detail specific responsibilities of the school or parents/carers to enable the alternative provision to work successfully.
- Maintain ongoing contact with provision, which includes at least a 6-weekly meeting to check the quality of provision.
- The school and provider will review the placement, sharing progress with the young person.
- Record the placement and initial checks, observations following meetings, learner progress, achievements and any concerns raised.
